

Dia Dhaoibh!

I hope you are all enjoying the good weather and getting ready for the summer holidays. They won't be long coming! Well done to everyone for all the fantastic work you have been doing over the past few weeks. I know it is not easy to be working from home!

The following is a list of **suggested** work for the next **two** weeks.

Due to the bank holiday and school holidays, the work begins on Wednesday June 3rd and is planned for two weeks from that date, ending on June 16th.

As always, this is a *guideline of suggested work*, and does not have to be strictly adhered to.

If there are any parts of the work that are too hard/ complicated, please do not spend too much time on it! Skip them, go on to the easier questions and maybe come back to them at a later stage if you like!

Do not worry about getting every single question completed, just do what you can and try your best J
